

SYGMA

210-Site Premium Car Dealership Group – 15+ Years of
Trusted Security & Electrical Solutions

ACCREDITED CONTRACTOR

Executive Summary

Sygma Fire, Security & Electrical has proudly partnered with one of the UK's largest premium car dealership groups for over **15 years**. Managing a portfolio of 210 sites nationwide, we have become a trusted partner in protecting people, property, and high-value assets across their network.

Our relationship has grown from routine fire alarm maintenance into a comprehensive, multi-service solution, spanning fire safety, electrical compliance, and advanced security systems. This enduring partnership demonstrates our commitment to delivering scalable, reliable, and innovative solutions for the automotive sector.

SYGMA

The Challenge

- **Scale & Complexity:** With 210 dealership sites across the UK, the group required a single partner capable of delivering consistent, high-quality services nationwide.
- **High-Value Assets:** Premium vehicles demand maximum security and reliable safety systems.
- **Evolving Requirements:** The group needed a flexible provider able to adapt to both planned works and urgent, ad hoc issues across multiple disciplines.

Our Solution

To meet these challenges, Sygma delivered a tailored package of fire, security, and electrical services, ensuring compliance and safety across every site:

- Fire Alarm Design, Installation & Maintenance
- Emergency Lighting Maintenance
- CCTV Systems for deterrence and incident management
- Access Control Solutions to manage staff and visitor entry
- Perimeter Security Fencing Refits to strengthen access control and support CCTV coverage
- Ad Hoc Services, such as fire door maintenance and replacements, to ensure emergency escape routes remain uncompromised

By combining planned maintenance with responsive support, we provided a service that is both proactive and adaptable to the group's changing needs.

SYGMA

The Results

- Nationwide Compliance: Full alignment with UK fire safety and electrical regulations across all dealership sites.
- Enhanced Security: Stronger perimeter protection and CCTV coverage reducing risks of theft and intrusion.
- Operational Reliability: Reduced downtime and fewer system failures thanks to preventative maintenance.
- Trusted Partnership: A 15+ year relationship built on reliability, responsiveness, and consistent delivery.
